Interactive content Study questions Get the Gist study questions at the bottom of each page to guide students to µ information, providing immediate feedback. These low-risk opportunities allow students to redefine responses to try again or study for tests. Investigations pes µ include videos, peri³ judicial articles, infographic articles, audio clips, simulation PainÁ ©is of response Students engage through discuss ³run's which allow students to see the answers of their peers after Á Á ³ post their pr Research allows students to share their µ and, Followed, view a live circular grade showing the answers of all members of the class. WebText Reader App Student Student Students can access materials and conclude to conclude Offline with our ³ app available for iOS and Android. Reading tools Reading tools allow students to click in terms of vocabulary to define µ and mark their own WebText, highlighting and adding notes in the ³. Read me our text-to-speech feature, instantly create an Audio version of the WebText Page to extend the reach of online content. My progress, students can follow their own work ³ µ my progress, which records their scores, time spent and conclusion. The instructor supports a complete, ready-to-use test bench to facilitate course preparation. LMS Intergation Somning-On and integration of books of the Family with many learning management systems including Blackboard, Canvas and Moodle. Course customization allows our support experts to tailor their web text to match the course curriculum. We can even include the headlines of our main American government book, Central IdA© ias in the American government, for those who teach the American and Texas government in a course. AnalAbtic Learning Learning Analytics allows you to track students' progress and identify students who are staying for or need intervention. The following materials are available for this course: Test Banklection slidesRelease Notes James R. Henson. PhdTexas Politics Projectuniversity of Texas at Austin Joshua M. .
